

THE WORLD'S SMALLEST SCISSOR LIFT

safe & productive low-level access

- ↑ Immediate low-level access
- ↑ Working height up to 3.6m
- ↑ Easy to manoeuvre
- ↑ Easy to operate
- ↑ Weighs just 235kg
- ↑ Tiny footprint
- ↑ Improved heavy duty castors
- ↑ Market leading Trojan battery

Pop-Up Products Limited is an award winning, independent company, solely engaged in the development and supply of quality access products and solutions for over 30 years

Pop-Up is a push around scissor lift that has been designed, manufactured and tested in accordance with both the European Standard BS EN 280:2001+A2:2009 and the safety requirements of the European Machinery Directive 2006/42/EC

Load

- Safe Working Load (SWL) 240kg

Dimensions

- Max. platform height 1.6m
- Max. working height 3.6m
- Max. allowable manual force 200 Newtons
- Max. allowable wind speed 0m/sec
- Max. allowable chassis inclination 0 degrees

Electrical System

- Voltage: 12 volt DC
- Battery charger: built-in automatic multi-voltage (90V - 240V)

Function speeds

- Raise 8 secs
- Lower 8 secs
- Approx. no. lifts: 300 fully charged with SWL

Stowed dimensions

- Overall length 113cm
- Overall width 70cm
- Overall height 164cm

Weight

- Overall mass (GVW) 235kg
