

TL SMART UP PRO

INTRODUCING OUR NEW PRODUCT

QUICK SPECS:

Smart Up Pro is the first professional telescopic ladder with an integrated toolbag. The top of the range for telescopic ladders, the **TL Smart Up Pro** is compact, easy to transport and has variable working heights.

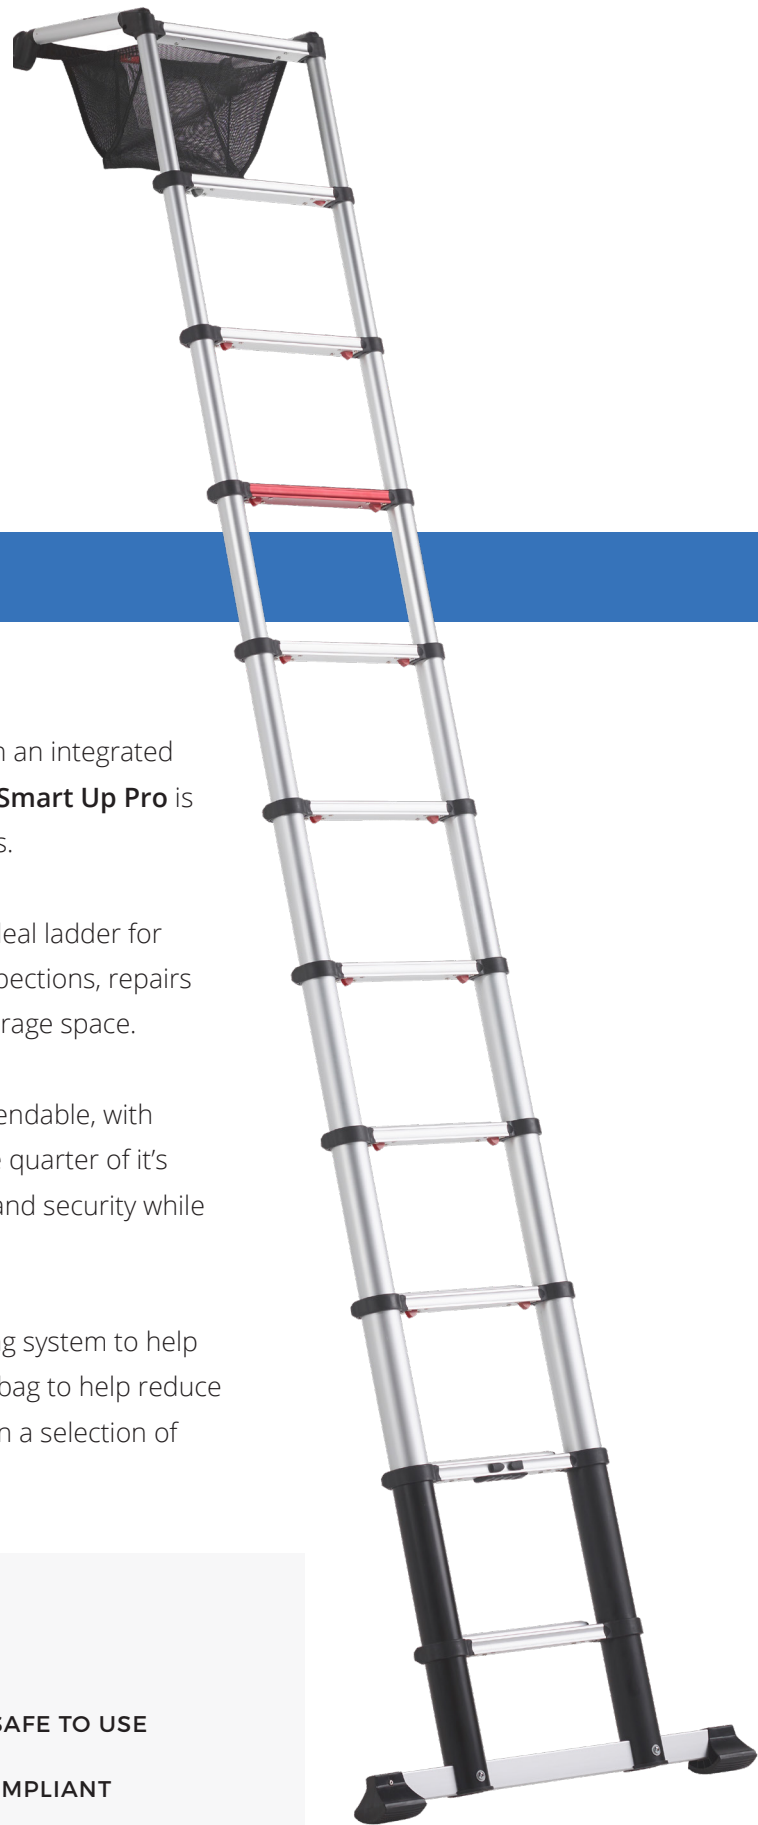

A multi purpose telescopic ladder, **TL Smart Up Pro** is an ideal ladder for trade professionals who need to carry out work such as inspections, repairs or maintenance, but who do not have a large amount of storage space.

The **TL Smart Up Pro** telescopic ladder is automatically extendable, with unique one-handed handling, but can be compacted to one quarter of it's full size for storage. The extra deep rungs provide comfort and security while working, while robust anti-slip feet ensure a secure base.

TL Smart Up Pro ladders have an integrated wall positioning system to help secure the ladder when in use, as well as an integrated toolbag to help reduce awkward working conditions. Our telescopic ladders come in a selection of heights, ensuring the ideal solution for any site.
