

TL SMART UP

TL SMART UP PRO is an ideal ladder for trade professionals who need to carry out work such as inspections, repairs or maintenance, but who do not have a large amount of storage space.

The TL SMART UP PRO telescopic ladder is automatically extendable, with unique one-handed handling, but can be compacted to one quarter of its full size for storage. The extra deep rungs provide comfort and security while working, while robust anti-slip feet ensure a secure base. TL SMART UP PRO ladders have an integrated wall positioning system to help secure the ladder when in use, as well as an integrated tool bag to help to reduce awkward working conditions.

Our telescopic ladders come in a selection of heights, ensuring the ideal solution for any site, the TL SMART UP PRO is fully compliant with EN131 European standard for ladder products. When transporting the TL SMART UP PRO the ladder must be fully collapsed, when the ladder is being used the push in the smart lock system and extend ladder, there is a red rung which symbolises the maximum height the person operating the ladder is able work from.

Always be mindful of where you place the ladder in relation to the environment surrounding you and potential hazards. This ladder has a maximum load of 150kg, this will allow for a single person and their tools.
